@moa_org

RULES

1. All clues can be found using <http://data2gohealth.nyc> and the map we've provided. You don't need any other info.
2. All responses must be sent to us via twitter, include a photo with a team member, the bingo box #, and the game tags.
example: A1 - Johnson Elementary on 3rd Ave has a school-based health center! <pic> #data2gohealth #nyc #opendata #datascavhunt @moa_org
3. Answer as many clues as possible in the time allotted. We will be checking answers as they roll in.
4. The team with the most correctly answered boxes (or the first team to finish all, based on twitter timestamps) wins!

	1	2	3	4
A	Find a school with a school-based health center , and send the name and a pic in front of the school.	What is the birth rate for this CD? Take a picture with a baby stroller.	How many liquor stores are in this CD? Take a picture in front of one of them.	What percentage of people in this neighborhood have had a dental cleaning in the past year? Take a picture with a person who has a nice smile.
B	Find a CD within the top 3 highest in the city for truck traffic density , what's the rate? Take a picture with a truck.	Wherever you are, what percentage of homes have rodents ? Take a picture with that number and a rat trap box. Bonus points if you can take a picture with a real rat.	Brooklyn Heights has the highest Walkability Index score in BK – what's the score and show us a reason why!	Pick a nearby location. What's the rate of flu vaccinations ? Take a pic of a place you could get a flu vaccine.
C	In your present location, what's the rate of people who did not do any physical activity recently. Find someone exercising and take a picture (without being creepy).	Find the CD with the most CitiBike Stations and take a pic in front of a station in that CD that shows us where you are.	Find a location you could maybe play real bingo with Seniors and take a pic of your bingo card out front.	Wherever you are, what percentage of residents are smokers ? Take a picture of a cigarette butt.
D	Wherever you are, how many primary care providers are there in that area? Show us something healthy!	Food Safety Rate shows the percentage of restaurants with an A grade. What's the food safety rate in the neighborhood you're in, and find an establishment that does NOT have an A grade.	Bonus box - take a picture of anything data/health related you discover in the neighborhood that surprises you and tell us about it.	In your present location, what's the percentage of zoned space for parks and recreation ? Take a picture in a park.

All clues can be found within the boundaries of this map.
